However there will be an additional cost from NGED to transfer the electricity service which we are awaiting the detail off and then once given approval the two companies will need to work together to find a suitable date to fix onsite.
Cllr Coates suggested fitting a solar powered light- Clerk to check costings.

8. **Discuss petitioning for a 20mph speed limit through the village (including Terrace Road)**

Cllr Boatright-Greene explained that he had researched this and there would need to be evidence of speeding through the village however the current date does not show that there is.

He has also checked the site crashmap.co.uk for evidence of vehicle damage or accidents as evidence of which there is also very little which could be related to speeds in the village.

Lastly there would need to be evidence that villagers agree with a 20mph speed limit, Cllrs discussed that there may not be the support for this. It was decided to not pursue this matter at present but to try and collate the speeds from the VAS machines working in the village.

9. **Terrace Road Safety Actions**
